

Solar energy in Morocco, engineered with excellence

European standards · Rigorous methodology · Full transparency

JK Energy is the energy subsidiary of Jean Kamal Solution en Bâtiment (Trade Reg. 192497, Rabat, Morocco). Drawing on years of leading large-scale technical construction projects, our team brings to the Moroccan solar market what it still too often lacks: **European-grade standards, the rigor of a proven methodology, and long-term contractual commitment.**

OUR SOLUTIONS

On-Grid

Grid-connected, daytime savings

Off-Grid

Total autonomy, remote sites

Hybrid

Solar + battery, 24/7 independence
